

Corridor/Athletic Lockers

# ULTRA-Frame

## Angle Iron Frame

**Why sacrifice appearance when your locker needs call for superior strength and durability?**

The NEW **ULTRA-Frame** Locker features a 1" angle iron frame on the inside of this all-welded locker. The result is a more durable locker with a professional, finished exterior. No expanded metal, no exposed angle iron.

*Just what you would expect from a leader, Republic Storage Systems.*

Fully framed interior angle iron 1" x 1" x 1/8" delivers superior strength **AND** exterior appearance

Maximum durability and security provided by 14-gauge doors and 16-gauge bodies

3 inch long, 14-gauge, 5 knuckle hinges are welded to angle iron frame for strength

- **Continuous tops, bottoms and backs for locker groupings (up to 36" wide)**
- **Compatible with Republic's current trim/accessory selection**
- **Diamond perforations provide superior strength compared to expanded metal**
- **All-Welded construction**
