

Heavy-Duty Corridor Lockers

The best choice for hallways. Extra heavy 14-gauge doors are extremely durable. Smooth fronts (no louvers) and recessed handles on tiered lockers are ideal for the constant passing of persons through the corridor. When recessed into a wall, the 24-gauge locker body parts help keep the overall cost of this locker low.

		Single Tier	Double Tier	Triple Tier
W	D	Nominal Door Height*		
12	12	48 60 72	30 36	20 24
	15	48 60 72	30 36	20 24
	18	48 60 72	30 36	20 24
