36" w x 21" d x 82" h	3 Full Width Shelves	86 sm / 16 lg	RS1156

*Full width shelf with center partition is not adjustable

Republic's all-welded cabinets are the toughest in the industry. Featuring 14-gauge steel construction, each of the steel doors include three heavy-duty brass-pin hinges. The 3-point latching system on the right door engages both the top and bottom of the cabinet. The cast aluminum handle includes a 3/8" hasp. Easily add your own padlock to quickly secure the doors closed.

The 4" high legs create a built-in forklift base that allows you to easily relocate your cabinet when needed. Each full width shelf holds up to 1,450 lbs. Shelves are fully adjustable on 3" centers. Simply bolt the shelves in to the welded keyhole slots at the needed height.

Removable plastic parts bins increase storage density, speed selection, and retrieval. Corrosion resistant, and impervious to most solvents, Safety Yellow plastic bins easily clip on and off racks welded to cabinets and doors. Easily add or remove shelves and bins as needed.
