

# Rivet Rack

Republic's rivet rack shelving is an economical solution to accommodate a variety of storage needs. This boltless shelving is easy to assemble and requires no tools. Rivet rack units allow access to items from all sides. These units are ideal for retail or office use or any other light to medium-duty storage needs.

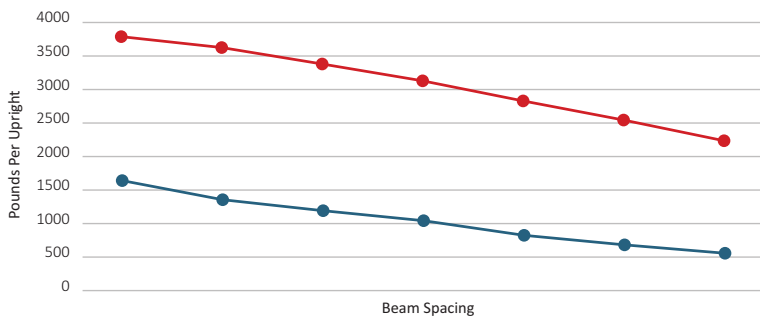

With several upright and beam sizes available, it's easy to configure the perfect storage rack for your location. A variety of decking options, such as particle board, wire, and solid decking are also available.

- 14 Gauge Steel Uprights - Angle or T-Post
- Boltless Beams - Low Profile, Angle, or Channel
- Beams are adjustable on 1-1/2" centers
- Center supports
- Width and depth length coat roads
- Optional decking available
- Available in Dove Gray

Rivet Rack with Particle Board Decking

Rivet Rack Static Post Capacity

	12"	18"	24"	30"	36"	42"	48"
Angle Post	1580	1420	1230	1040	860	690	560
T-Post	3720	3550	3400	3180	2890	2590	2250

Based on 30,000 psi yield strength. Assumes beam spacing is equal in all directions. No seismic loading considered.

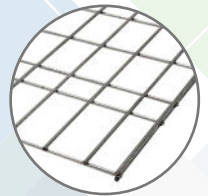

## OPTIONAL DECKING

Duradeck is a lightweight decking made from 100% polypropylene that is remarkably light yet exceptionally rigid and impact resistant.

duradeck

Rivet rack flat wire decking is made with 6 gauge wire 2" x 4" mesh with a galvanized finish. Meets fire code standards.

wire

Particle board decking is 5/8" thick and pre-cut to size. Great for general purpose and record storage.
