

Storage Solutions

A century of Excellence... a legacy of Quality

ABOUT REPUBLIC

Republic Storage Products is your trusted source for industrial storage and locker solutions since 1886. As a leading manufacturer of steel storage products, we take pride in providing high-quality, durable, and reliable storage solutions that meet the needs of businesses across various industries.

Our company has a rich history that dates back over a century. Since our inception, we have been committed to manufacturing top-of-the-line storage products that exceed the expectations of our customers. Over the years, we have continuously improved our designs, materials, and manufacturing processes to provide products that are not only functional but also aesthetically pleasing.

Today, we offer a wide range of industrial storage products and lockers, including shelving, cabinets, workstations, multilevel systems, and more. All our products are made using premium-quality materials and are built to withstand the rigors of industrial use.

At Republic Storage Products, we believe that our success is a result of our commitment to quality, innovation, and customer satisfaction. We are dedicated to providing our customers with the best possible solutions for their storage needs, and we will continue to do so for many years to come.

Thank you for choosing Republic Storage Products as your go-to source for industrial storage solutions.

APPLICATIONS

2000 Series shelving is ideal for several smaller items and boxes. Perfect for retail stores and small parts storage.

USE FOR: Light to medium weight smaller sized items.

AVAILABLE WIDTHS	36" 48"
AVAILABLE DEPTHS	12" 18" 24"
AVAILABLE HEIGHTS	37" 49" 61" 73" 85" 97" 121"
LEVEL ADJUSTABILITY	1-1/2"
OVERALL COST	\$\$
ASSEMBLY	Moderate

POSTS

Posts are roll-formed from 14-gauge steel for maximum strength. Posts feature 1-1/2" vertical shelf adjustments. Most common applications use 85" high posts. Both 97" and 121" high posts are also available.

ANGLE POST UNITS

The most economical option! An angle post is used on both the front and rear corners of the shelving unit.

BEADED POST UNITS

More space for your money! While angle posts are used in the rear corners, the front corners of the unit feature beaded posts. The smaller front profile of the beaded post allows for maximum shelf clearance for your stored items.

BOX SHELVES & CLIPS

Shelves are roll-formed with box formations with lapped and welded corners. The compression clip is easy to move and reposition when needed.

2000 SERIES SHELVING

SIMPLICITY MEETS FLEXIBILITY

2000 Series shelves are roll-formed with box formations in the front and rear of the shelf with lapped and welded corners for high capacity ratings.

Our compression clip is the most imitated clip in the industry. Clips allow for rapid repositioning of shelves with 1-1/2" vertical shelf adjustability.

OPEN OR CLOSED SHELVING

Open shelving allows more visibility to stored products. A cross brace on both sides as well as on the back help stabilize the unit from swaying.

Closed shelving helps to better contain items within a set space. Closed shelving features 24-gauge back and 22-gauge side sheets to completely enclose the shelving unit.

TIP! Backs can be shared when shelving is installed in a back-to-back configuration.

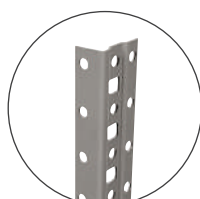

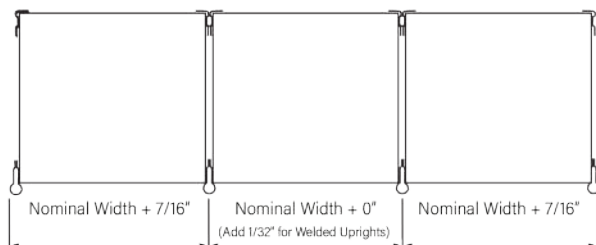

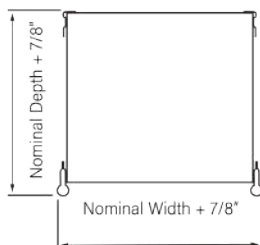

Shelving Post Load Table - Allowable Axial (Vertical) Load Per Post Type

Shelf Spacing					
	Single Angle Post Sway Brace or Bolted Side Sheet, or Welded End Upright	Double Angle Post Sway Brace or Bolted Side Sheet	Double Angle Post Welded Intermediate Upright	Beaded Post Sway Brace or Bolted Side Sheet	Beaded Post Welded Upright
12"	1800 lbs.	3600 lbs.	4800 lbs.	4300 lbs.	4900 lbs.
18"	1325 lbs.	2650 lbs.	4500 lbs.	3100 lbs.	4100 lbs.
24"	900 lbs.	1800 lbs.	4100 lbs.	1950 lbs.	3200 lbs.
30"	670 lbs.	1340 lbs.	3600 lbs.	1300 lbs.	2250 lbs.
36"	500 lbs.	1000 lbs.	3100 lbs.	1000 lbs.	1650 lbs.
42"	-	-	2500 lbs.	750 lbs.	1250 lbs.
48"	-	-	1900 lbs.	-	-

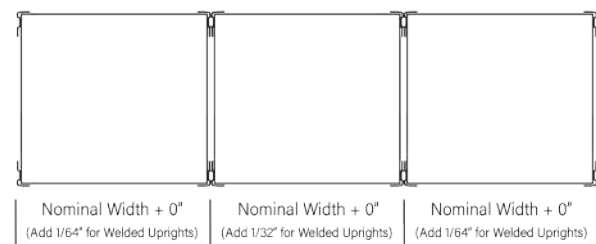

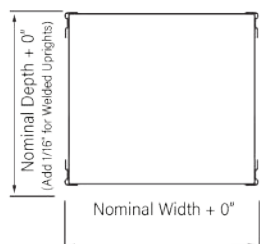

Post capacities are dependent upon shelf spacing. The carrying capacity of a post increases as shelf spacing decreases. Do not exceed the allowable loads listed.

2000 SERIES SHELVING | COMPONENTS

BUILD YOUR OWN

Easily configure your own shelving unit.

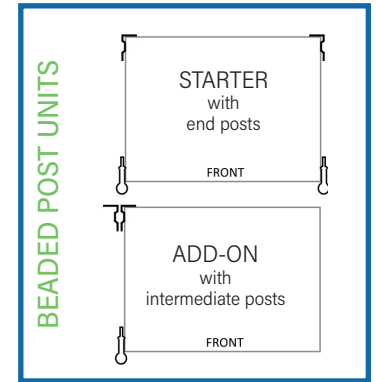

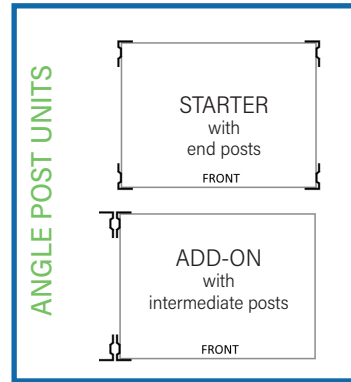

Angle posts can be used on all four corners. Beaded post should be used in front corners with Angle posts in the rear.

Use sway braces on sides and backs to stabilize open shelving units. Add closed back and side panels for closed shelving units. Closed back and side sheets can be overlapped for non standard heights.

Upright assemblies include beaded and angle posts with side panel welded in place. This option is ideal for faster assembly in lieu of posts + side sheets.

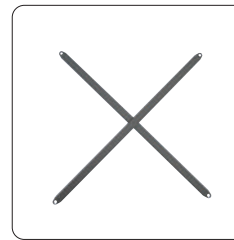

Select shelf capacity based on your requirements. Shelves include four shelf clips each. Shelves are adjustable on 1-1/2" vertical centers.

BIN SHELVING SECTIONS

Bin shelving units feature beaded posts on the front corners and angle posts on the rear corners. Full height dividers attach to shelves to create bins in the shelving unit. Top and bottom flanges attach to the shelf using push-in plastic clips. Dividers can be adjusted left-to-right on 1" intervals. Add or remove dividers as needed. Shelving units ship unassembled.

Order one starter unit and one or more add-ons to make up a row of shelving.

Starter Units are supplied with:

- 2 Closed Beaded Post End Uprights
- 1 Closed Back
- 1 Closed Front Base
- Shelves and Shelf Clips
- Shelves and Dividers for Configuration

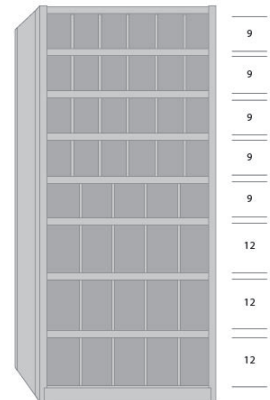

Add-on Units are supplied with:

- 1 Closed Beaded Post Intermediate Upright
- 1 Closed Back
- 1 Closed Front Base
- Shelves and Dividers for Configuration

Available In #20 Dove Gray

SHELVING MULTILEVEL SYSTEM - CUSTOM DESIGNED SYSTEMS

Take advantage of your existing vertical space and save substantially by installing a Republic shelving multilevel system. To assure you of the utmost structural integrity and safety, all designs are performed under the direct supervision of a professional engineer. Our designs comply with AISC and AISI specifications as well as applicable building codes.

Multilevel Shelving

Multilevel shelving systems with catwalks are ideal for increasing the capacity of shelf storage installations. In most cases, the catwalk supports can be fastened to shelving or rack uprights, eliminating the need for free standing columns. When necessary, additional structural columns are used to support the multilevel framing members.

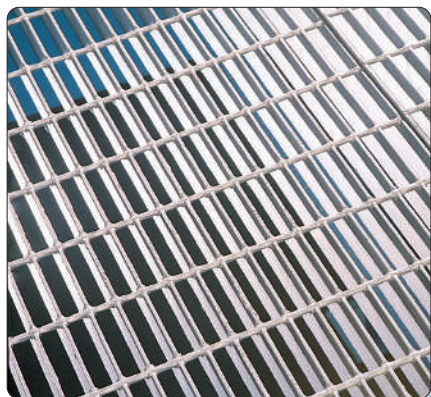

Deck Over Shelving

Deck over shelving supported multilevel structures combine the features of both the free standing and multilevel styles. Like multilevel shelving, deck supports can be installed onto existing shelving uprights. As with free standing multilevels, the upper level is free for storage, assembly activities, office space or other applications.

Steel Bar Grating

1" x 1/8" steel bar grating offers an 82% open area allowing light and ventilation to penetrate. Frequently, the need for a lower level sprinkler is eliminated.

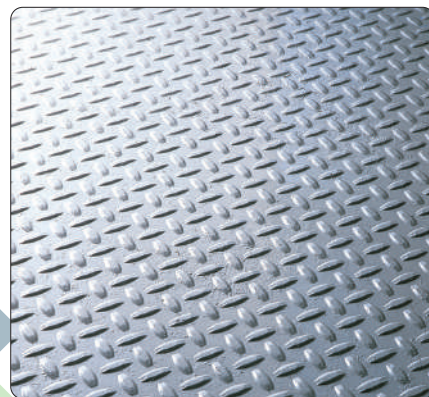

Roof Deck with Plywood Floor

Provides a smooth surface on which to walk or roll carts. Roof deck is 1-1/2" deep, 20-gauge steel (18-gauge optional). Plywood floor covering is 3/4" thick. Polyethylene coated plywood, resin floors, and fire retardant plywood products are available.

Roof Deck / Steel Floor

Easy to clean, this is a natural choice for pharmaceutical, food processing, and chemical plants as well as other applications that involve frequent cleaning. 12-gauge steel floor plate is available with diamond texture or smooth finish.

APPLICATIONS

2000 Series shelving with drawer is ideal for storing small items and boxes as well as loose parts. Perfect for small parts storage.

USE FOR: Light to medium weight smaller sized items.

AVAILABLE WIDTHS	36" 48"
AVAILABLE DEPTHS	18" 24"
AVAILABLE HEIGHTS	85"
LEVEL ADJUSTABILITY	1-1/2"
OVERALL COST	\$\$
ASSEMBLY	Moderate

SHELVING UNIT

More space for your money! While angle posts are used in the rear corners, the front corners of the unit feature beaded posts. The smaller front profile of the beaded post allows for maximum shelf clearance for your stored items.

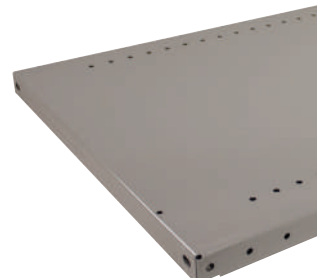

BEADED POSTS

Posts are roll-formed from 14-gauge steel for maximum strength. Posts feature 1-1/2" vertical shelf adjustments. Most common applications use 85" high posts.

SHELVES

Steel shelves are made from roll-formed high quality steel. Box formations in both the front and rear offer extra stability. Each shelf attaches to the posts with four shelf clips.

2000 SERIES SHELVING WITH DRAWERS

IDEAL STORAGE FOR COMBINED STORAGE

Republic combines 2000 series shelving and modular drawers to create the perfect storage solution for both small parts as well as bulkier items.

2000 Series shelves are roll-formed with box formations in the front and rear of the shelf with lapped and welded corners for high capacity ratings. Shelves can be easily adjusted on 1-1/2" vertical centers without tools.

The closed backs and sides of the shelving unit helps to better contain items within a set space. Closed shelving features 24-gauge back and side sheets to completely enclose the shelving unit.

Modular drawers in shelving are easy to install using only four brackets. Suspension glide rails lock into brackets, then the drawers slide right into place.

Choose from starter and add-on units or build your own!

MODULAR DRAWERS

All drawers have a capacity of 400 lbs and fully extend for complete visual and physical access.

The drawers easily install into drawer brackets that attach to the shelving posts. Suspension glide rails lock into the brackets, then the drawers slide into place.

Each drawer features an ergonomic aluminum handle. Use the included paper label and plastic shield to help keep the shelving unit labeled and organized.

LAYOUT KITS

Adjustable layout kits are available for both 18" and 24" deep drawers. The steel dividers can be easily moved or removed as needed to accommodate the items stored inside.

Partitions and dividers can be ordered separately. Easily add more dividers to an existing layout kit or combine partitions and dividers as needed to create your own configuration.

SHELVING WITH DRAWERS | PRE-DESIGNED UNITS

PRE-DESIGNED UNITS

2000 series shelving units use beaded posts on front corners and angle posts on rear corners. The 22-gauge shelves have a weight capacity of 550 lbs each and are adjustable on 1-1/2" centers.

Each drawer includes Layout Kit C with 9 compartments. Drawers have a weight capacity of 400 lbs each. Units ship unassembled.

Order one starter unit and one or more add-ons to make up a row of shelving.

Starter Units are supplied with:

- 2 Closed Beaded Post End Upright
- 1 Closed Back
- 5 Shelves and Shelf Clips
- Modular Drawers with Drawer Brackets

Add-on Units are supplied with:

- 1 Closed Beaded Post Intermediate Upright
- 1 Closed Back
- 5 Shelves and Shelf Clips
- Modular Drawers with Drawer Brackets

BUILD YOUR OWN | SHELVING WITH DRAWERS

Build Your Own Shelving with Drawers

Build a shelving with drawers unit to fit specifically to your needs in four easy steps!

Step 1

Choose a 2000 Series Beaded Post Closed Shelving Unit

Choose a unit that is 36" or 48" wide and 18" or 24" deep from page 7. Or build your own Beaded Post Shelving Unit from Components on page 10.

Shelving is available in ● 20 - Dove Gray

Note: A stationary shelf is required both above and below the Modular Drawers to secure the Drawer Bracket mounting.

Step 2

Choose number of drawers and drawer sizes. Drawer numbers must add up to match the available drawer bracket height segments (see step 3). Drawers are available in 6 premier colors.

● Dark Sea Blue ● Airforce Blue ● Vulcan Black ● Red Baron ● Monorail Gray ● Dove Gray

How to Build Your Own Drawers in Shelving: The total of the drawer numbers must add up to the bracket segment total.

Example:

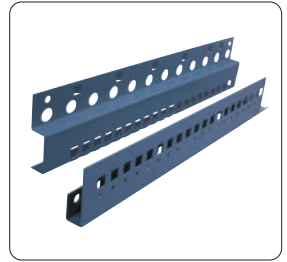

N053618NN000K = 05 Drawer
N053618NN000K = 05 Drawer
N053618NN000K = 05 Drawer

JMB3615 = 15 Bracket Segment Total

SHELVING WITH DRAWERS | BUILD YOUR OWN

Step 3

Determine the Bracket Height. Bracket segments must match the total segments of the chosen drawers (see step 2). Brackets should match the drawers are available in 6 premier colors.

Bracket Height	Bracket Segment Total	36" Wide Bracket Cat No.	48" Wide Bracket Cat No.
12"	15	JMB3615 •	JMB4815 •
18"	22	JMB3622 •	JMB4822 •
24"	30	JMB3630 •	JMB4830 •
36"	45	JMB3645 •	JMB4845 •
48"	60	JMB3660 •	JMB4860 •

How to Build Your Own Drawers in Shelving: The total of the drawer numbers must add up to the bracket segment total.

Example:

N053618NN000K = 05 Drawer
N053618NN000K = 05 Drawer
N053618NN000K = 05 Drawer

JMB3615 = 15 Bracket Segment Total

Step 4

Select Pre-Engineered Layout Kits. Choose layout configuration based on drawer width and depth.

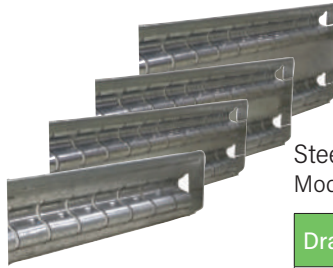

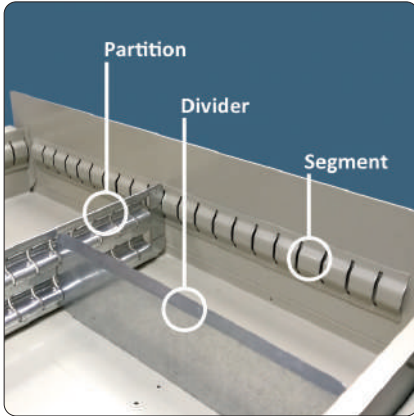

36" Wide x 18" Deep Drawer				36" Wide x 24" Deep Drawer

APPLICATIONS

Rivet rack is an economical solution for storing light-weight bulky items. These racks are ideal for retail use, stock rooms, or garages.

USE FOR: Light to medium weight items that can be hand loaded.

AVAILABLE WIDTHS	30" 32" 48" 60" 72" 84" 96"
AVAILABLE DEPTHS	12" 15" 18" 24" 30" 32" 48"

LEVEL ADJUSTABILITY	1-1/2"
OVERALL COST	\$
ASSEMBLY	Easy

BEAMS

Beams are made of 14-gauge steel and feature double rivets. These rivets easily slide into the keyhole slots on the upright posts. Each level requires four beams - two width beams and two depth beams.

LIGHT-DUTY BEAMS

Low profile beams are perfect for sections requiring more levels for smaller items.

MEDIUM-DUTY BEAMS

The most popular option! Medium-duty beams offer a strong weight capacity perfect for most applications

HEAVY-DUTY "C" CHANNEL BEAMS

"C" channel beams offer a higher weight capacity per level. Use these heavy-duty beams for the width dimensions.

BOLTLESS RIVET RACK

BUDGET FRIENDLY STORAGE SOLUTIONS

Republic has been making storage solutions like our boltless rivet shelving since 1930. This shelving is a budget friendly option for light to medium-duty applications. It is perfect for use for in offices and as retail storage.

Both starter and add-on sections with 3 and 4 levels are available in pre-engineered setups. You can also build your own custom rack system by getting individual components.

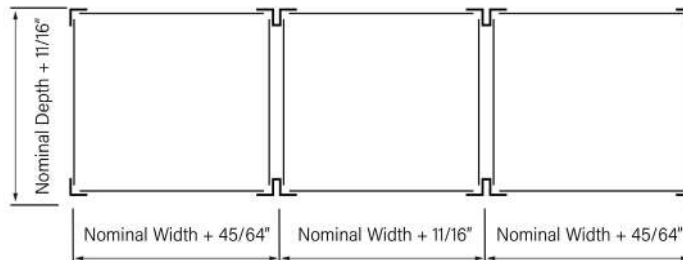

POSTS

Posts are made of 14-gauge steel for maximum strength. The keyhole slots allow beams to be installed without additional hardware. Posts feature 1-1/2" vertical shelf adjustments. Most common applications use 84" high posts. Posts from stock up to 144" high are also available.

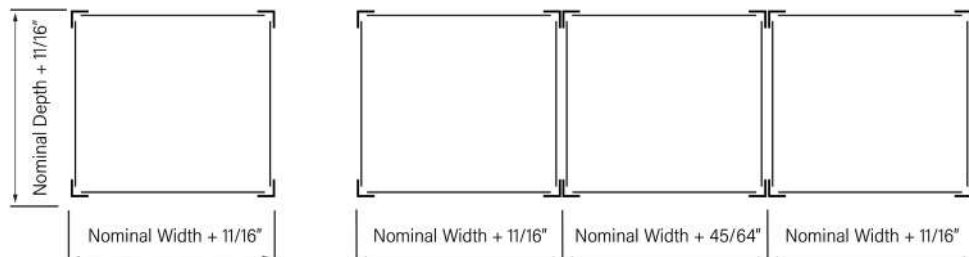

ANGLE POST END UPRIGHT

Angle posts are used on the ends of each rack section.

T-POST INTERMEDIATE UPRIGHT

T-posts are used in middle sections when creating a row of starters and add-ons.

RIVET RACK | PRE-DESIGNED UNITS

RIVET RACK UNITS

Beams drop into slots on uprights. Includes 14-gauge posts and double rivet, medium-duty beams. Adjustable on 1-1/2" centers. Ships unassembled

Order one starter unit and one or more add-ons to make up a row of racking.

Starter Units are supplied with:

- 4 Angle Posts
- 2 Width Beams per Level
- 2 Depth Beams per Level
- Center Supports (for beams 60" and wider)

Add-on Units are supplied with:

- 2 Angle Posts and 2 T-Posts
- 2 Width Beams per Level
- 2 Depth Beams per Level
- Center Supports (for beams 60" and wider)

Available In #20 Dove Gray

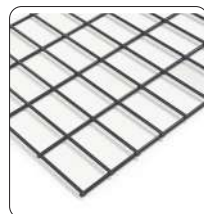

DECKING OPTIONS

Several decking options are available to complete your rivet rack unit.

Particle board is the most budget friendly decking option.

Wire decking options allow for maximized light penetration and sprinkler access. Available in Basalt Gray.

Solid decking creates a smooth and sturdy surface for your stored items. Available in Dove Gray.

Angle

T-Post

BUILD YOUR OWN

Easily configure your own racking unit.

Posts

Angle posts are used on the ends of a unit or rack row. T-posts should be used in between sections.

Beams

Double rivet beams are the most commonly used. Sections using single rivet beams should use double rivet beams on the top and bottom levels for stability.

Each level requires four beams - two width beams and two depth beams. It is recommended that the depth beams not exceed 48 inches.

Use the foot plate and anchor to secure your rivet rack unit to the floor. The foot plate fits against the post and attaches to the floor level beam.

Available In #20 Dove Gray

Capacities based on dead weight evenly distributed over the entire surface per pair of beams. Beam used in width direction will determine capacity. 12" - 24" beams are typically used in depth direction.

APPLICATIONS

Bulk storage rack is ideal for commercial or display racks. It's heavy load capacity is perfect for warehouses and shipping docks.

USE FOR: Medium to heavy weight items that can be hand loaded.

UPRIGHTS

Bulk storage rack uprights are made from fully welded 14-gauge steel. Welded uprights feature tubular bracing that is MIG welded to the post for added stability.

VERTICAL ADJUSTMENT

The slots of the uprights provide a quick and easy vertical adjustment of beams to create optimal storage solutions.

There are also no "dead spots" in the upright posts to disrupt your placement of beams along the entire height of the post.

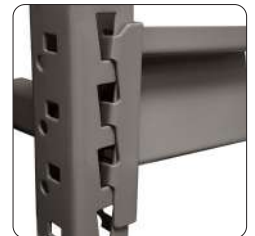

BEAMS

Heavy-duty beams are made of 14-gauge steel and feature a unique Z design that increases strength and load capacity. A 5/8" step on the beam allows easy placement of decking.

TRIPLE STUD DESIGN

Each end of the bulk storage rack beam has three studs to engage the heavy-duty metal rack upright slots.

Beams can be adjusted on 1-1/2" vertical centers. A fold in lock tab easily engages for security against displacement.

BULK STORAGE RACK

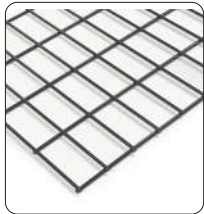

VERSATILE STORAGE SOLUTIONS

Republic's bulk storage racks are perfect for the hand-loading of intermediate weight bulky items. In addition to storing merchandise in shipping and receiving departments, stores can use these industrial metal racks in retail locations for display as well as for back stock.

The slots of the uprights provide a quick and easy vertical adjustment of beams to create optimal storage solutions. There are also no "dead spots" in the upright posts to disrupt your placement of beams along the entire height of the post.

Our unique Z beam design increases the strength and load capacity of the steel beams while also resisting tipping and eliminating wasted space. The MIG welded beam clips give added strength. The beams adjust on 1-1/2" inch vertical centers. A fold in lock tab easily engages with the post to prevent accidental displacement.

These heavy-duty racks assemble without tools. Republic strongly recommends that all storage racks be properly anchored. Make sure to install your heavy-duty metal storage racks plumb and level before anchoring them to the floor and/or wall.

BULK STORAGE RACK | PRE-DESIGNED UNITS

UNITS WITH FRONT-TO-BACK SUPPORTS

Bulk storage rack units feature fully welded uprights and heavy-duty beams. The slots of the uprights provide a quick and easy vertical adjustment of beams to create optimal storage solutions. Front-to-back supports help minimize beam rotation when supporting heavy loads. Ships unassembled.

Levels are adjustable in 1-1/2" increments. Order one starter unit and one or more add-ons to make up a row of racking.

Starter Units are supplied with:

- 2 Welded Upright Assemblies
- 2 Beams per Level
- 1 to 2 Front-to-Back Supports per Level (based on width)

Add-on Units are supplied with:

- 1 Welded Upright Assembly
- 2 Beams per Level
- 1 to 2 Front-to-Back Supports per Level (based on width)

Available In #20 Dove Gray

UNITS WITH WIRE DECKING

Bulk storage rack units feature fully welded uprights and heavy-duty beams. The slots of the uprights provide a quick and easy vertical adjustment of beams to create optimal storage solutions. Flat wire decking is optimal for visibility and sprinkler access. Ships unassembled.

Levels are adjustable in 1-1/2" increments. Order one starter unit and one or more add-ons to make up a row of racking.

Starter Units are supplied with:

- 2 Welded Upright Assemblies
- 2 Beams per Level
- Wire Decking Panels for Each Level
- 2 to 4 Front-to-Back Supports per Level (based on width)

Add-on Units are supplied with:

- 1 Welded Upright Assembly
- 2 Beams per Level
- Wire Decking Panels for Each Level
- 2 to 4 Front-to-Back Supports per Level (based on width)

● Available In #20 Dove Gray

BULK STORAGE RACK | PRE-DESIGNED UNITS

UNITS WITH PARTICLE BOARD DECKING

Bulk storage rack units feature fully welded uprights and heavy-duty beams. The slots of the uprights provide a quick and easy vertical adjustment of beams to create optimal storage solutions. Particle board decking offers an economical decking. Ships unassembled.

Levels are adjustable in 1-1/2" increments. Order one starter unit and one or more add-ons to make up a row of racking.

Starter Units are supplied with:

- 2 Welded Upright Assemblies
- 2 Beams per Level
- 1 Particle Board Deck per Level
- 2 to 4 Front-to-Back Supports per Level (based on width)

Add-on Units are supplied with:

- 1 Welded Upright Assembly
- 2 Beams per Level
- 1 Particle Board Deck per Level
- 2 to 4 Front-to-Back Supports per Level (based on width)

● Available In #20 Dove Gray

UNITS WITH RIBBED DECKING

Bulk storage rack units feature fully welded uprights and heavy-duty beams. The slots of the uprights provide a quick and easy vertical adjustment of beams to create optimal storage solutions. Ribbed decking panels allow space to grab packages easily while preventing pinched fingers. Ships unassembled.

Levels are adjustable in 1-1/2" increments. Order one starter unit and one or more add-ons to make up a row of racking.

Starter Units are supplied with:

- 2 Welded Upright Assemblies
- 2 Beams per Level
- Ribbed Decking Panels for Each Level
- 1 to 2 Front-to-Back Supports per Level (based on width)

Add-on Units are supplied with:

- 1 Welded Upright Assembly
- 2 Beams per Level
- Ribbed Decking Panels for Each Level
- 1 to 2 Front-to-Back Supports per Level (based on width)

● Available In #20 Dove Gray

BULK STORAGE RACK | PRE-DESIGNED UNITS

UNITS WITH SOLID DECKING

Bulk storage rack units feature fully welded uprights and heavy-duty beams. The slots of the uprights provide a quick and easy vertical adjustment of beams to create optimal storage solutions. 20-gauge shelves are used to create solid decking panels for a strong solid surface. Ships unassembled.

Levels are adjustable in 1-1/2" increments. Order one starter unit and one or more add-ons to make up a row of racking.

Starter Units are supplied with:

- 2 Welded Upright Assemblies
- 2 Beams per Level
- Solid Decking Panels for Each Level
- 2 to 4 Front-to-Back Supports per Level (based on width)

Add-on Units are supplied with:

- 1 Welded Upright Assembly
- 2 Beams per Level
- Solid Decking Panels for Each Level
- 2 to 4 Front-to-Back Supports per Level (based on width)

● Available In #20 Dove Gray

Additional Level for Bulk Storage Rack

Easily add an additional level to your existing bulk storage rack. Levels include:

- 2 Beams
- Front-to-back supports
- Decking panel(s) to fit beam width

● Available In #20 Dove Gray

BULK STORAGE RACK | COMPONENTS

BUILD YOUR OWN

Available In #20 Dove Gray

Easily configure your own bulk storage rack unit from the listed parts.

Uprights

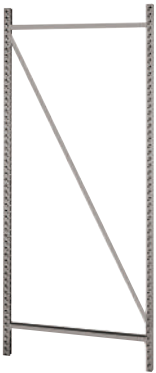

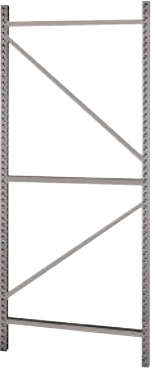

All-welded upright assemblies are 14-gauge steel with a 10,000 lb capacity per section. Tubular bracing is MIG welded to the posts.

Beams

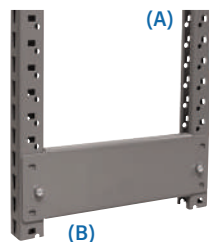

Each end of the bulk storage rack beam has three studs to engage the heavy-duty metal rack upright slots. Beams can be adjusted on 1-1/2" vertical centers. A fold in lock tab easily engages for security against displacement.

NOTE: In the interest of safety, Republic strongly recommends that racks that are 72" or higher be floor and/or wall anchored.

shelves can be rotated to fit width or depth of beam

DECKING OPTIONS | BULK STORAGE RACK

Easily add your choice of duradeck or particle board decking to your existing bulk storage rack OR rivet rack levels! Decking panels are cut to size to fit your rack level. Be sure to use supports where needed. All capacities are based on evenly distributed loads using the minimum amount of supports recommended. See recommended quantities on page 23 for rivet rack center supports or page 33 for bulk storage front-to-back supports.

Particle Board Decking

Durable 5/8" thick particle board cut to size. Particle board is the most economical option for general storage applications.

INCREASED VERSATILITY

The teardrop design is interchangeable with all major teardrop-style products on the market today. This allows you to easily upgrade or replace existing sections while using some of your existing components.

UPRIGHTS

Roll-formed uprights provide a greater strength-to-weight ratio. Upright structures bolted with precision K-brace and heavy-duty cross channel reinforcement for increased strength.

Pallet rack uprights conform to the latest standards set by Rack Manufacturers' Institute LRFD Specifications.

BEAMS

Roll-formed beams feature an integrated 1-5/8" step for decking and are completely enclosed for clean applications. Each beam has at least three rugged studs to engage the tapered teardrop slots in the upright with a compression fit.

Beams can be adjusted on 2" vertical centers. An integral safety lock automatically locks into place when the beam is properly seated.

TIP! If updating your existing pallet rack with new components keep in mind that certain components must match each other to ensure the unit is level and secure.

EXAMPLE: A section can use old beams with new uprights, or new beams with old uprights. A section CANNOT mix an old and new upright due to varying teardrop heights and it CANNOT mix old and new beams due to variations in overall width.

PALLET RACK

VERSATILE STORAGE SOLUTIONS

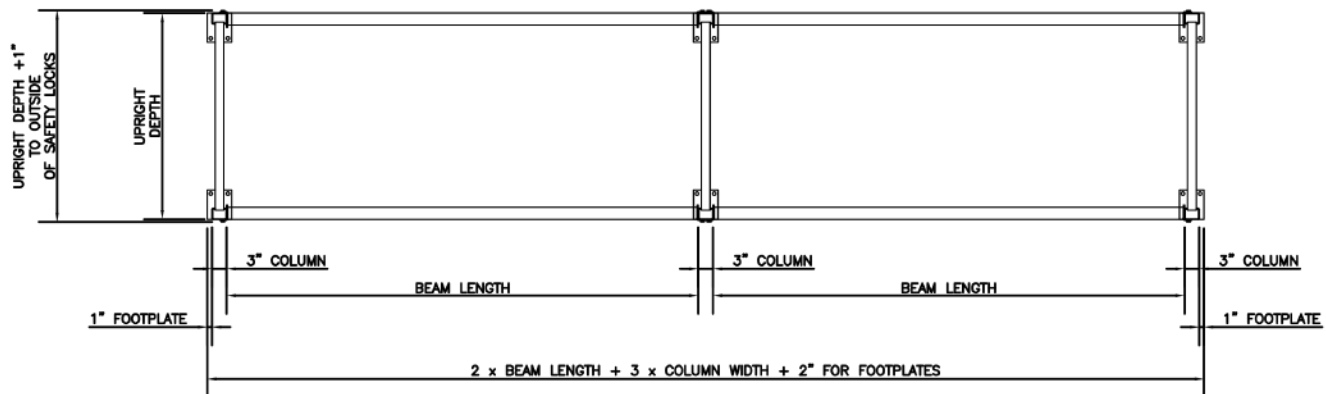

Republic offers pallet racking with a traditional teardrop design. You can find it in warehouses and facilities across the country. This is our most heavy-duty storage rack and is ideal for large warehouse projects. Republic has been an industry leader in heavy-duty open racking since 1930.

One of the most common features of any warehouse is the use of industrial pallet racking. These are our most heavy-duty storage racks. Metal pallet racks are designed to have pallets loaded and unloaded using forklifts. They are efficient because you don't have to manually do any of the heavy lifting. Pick a pallet up off a truck and immediately place it where it belongs on a rack.

This industrial pallet racking is available with either front-to-back supports or wire decking. The supports are cross bars that help prevent misplaced pallets from falling through. They also help to tie beams together on racks that are 120 inches or wider. Our waterfall wire decking has a 14-gauge support channel for durable storage. Wire decking allows for sprinklers to access all levels of your warehouse racking.

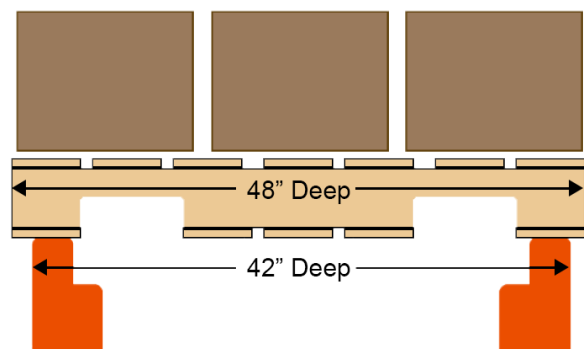

PALLET RACK GROWTH CHART

PALLET RACK DEPTH

42" deep Pallet Rack is the most popular! The most commonly used pallets are 48" deep. Using a 42" deep rack allows the pallet to rest on top of both beams without the need for extra decking. This is also referred to as Ledge Loading.

PALLET RACK | PRE-DESIGNED UNITS

UNITS WITH FRONT-TO-BACK SUPPORTS

Pallet rack units feature fully bolted uprights and medium-duty beams. The slots of the uprights provide a quick and easy vertical adjustment of beams to create optimal storage solutions. Front-to-back supports help minimize beam rotation when supporting heavy loads. Ships unassembled.

Levels are adjustable in 2" increments. Order one starter unit and one or more add-ons to make up a row of racking.

Starter Units are supplied with:

- 2 Upright Assemblies
- 2 Beams per Level
- 2 to 3 Front-to-Back Supports per Level (based on width)

Add-on Units are supplied with:

- 1 Upright Assembly
- 2 Beams per Level
- 2 to 3 Front-to-Back Supports per Level (based on width)

● Kingfisher Green Uprights

UNITS WITH WIRE DECKING

Pallet rack units feature fully bolted uprights and medium-duty beams. The slots of the uprights provide a quick and easy vertical adjustment of beams to create optimal storage solutions. Wire decking is optimal for visibility and sprinkler access. Ships unassembled.

Levels are adjustable in 2" increments. Order one starter unit and one or more add-ons to make up a row of racking.

Starter Units are supplied with:

- 2 Upright Assemblies
- 2 Beams per Level
- Wire Decking Panels for Each Level

Add-on Units are supplied with:

- 1 Upright Assembly
- 2 Beams per Level
- Wire Decking Panels for Each Level

● Kingfisher Green Uprights

● Safety Orange Beams

PALLET RACK | COMPONENTS

BUILD YOUR OWN

Easily configure your own pallet rack unit from the listed parts.

Bolted Uprights

Determine the depth and height needed. Use **2 Uprights** for stand-alone sections. Use **1 Upright** for every add-on section.

NOTE: All uprights include a foot plate. 192" and 240" high uprights include heavy-duty foot plates in lieu of standard foot plates.

Beams

Determine the width needed. Use **2 Beams** for each level. Beams 120" long and greater should be tied together with at least one front-to-back support except when solid or wire decking is used.

Kingfisher Green Uprights

120"	(2) 58"w	(2) 60"w
144"	(3) 46"w	(3) 48"w

PALLET RACK SAFETY RECOMMENDATIONS

Determine actual load requirements as accurately as possible and adhere to rated capacities shown in tables on the following pages. Additional precautions should be taken in applications where extraordinary rack abuse is anticipated. For example, when narrow aisles are used for high speed or high inventory turnover operations, Republic recommends additional rack reinforcement. Impact supports and aisle guidance devices may be advisable – especially at aisle intersections and other vulnerable locations.

BEAM LENGTH

Republic recommends a **clearance of 4" between palletized loads** – and between loads and uprights. Beams over 120" in length should be tied together with the appropriate front-to-back support to maintain proper spacing at each storage level.

BACK-TO-BACK CLEARANCE

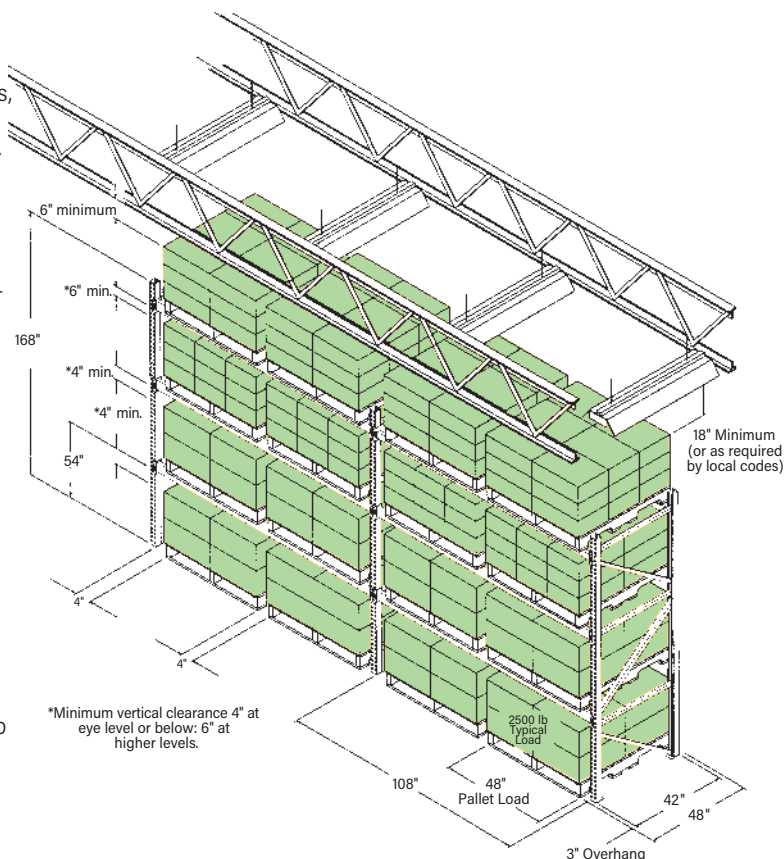

Clearance should be sufficient to accommodate minimum pallet overhang and tolerances – where pallet placement may vary. Additional clearances may be required to accommodate building structures or intermediate sprinkler systems (according to local codes).

INSTALLATION AND ANCHORING

To insure minimum stability standards, racks should be level, plumb and properly anchored.

SEISMIC ZONES

Since requirements vary so widely, we advise you to contact Republic for assistance on rack projects in high risk seismic zones.

SELECT UPRIGHT FRAMES

Add the following figures:

Height of pallet loads (including pallet)

+ Height of shelf beam

+ 4" Min. vertical clearance for each pallet load

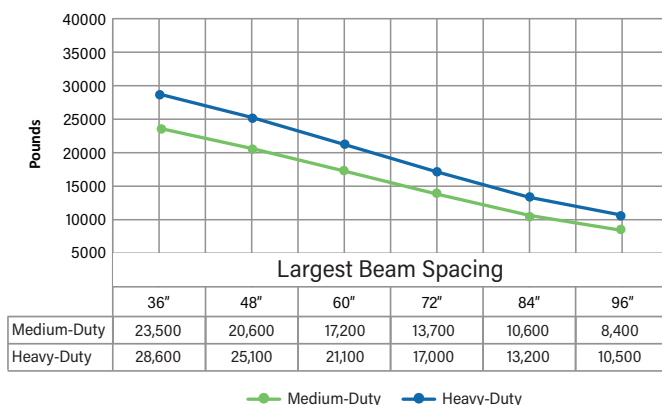

Sum of above dimensions = Rack Height

For uppermost load level, location of shelf beam should be 6" less than fork truck's maximum lift height. Top of beams need to be at even increments.

SELECT BEAMS

- Determine load weights per pair of beams
(two 2,500 lb pallet loads = 5,000 lb beam capacity)
- Determine length of beam required based on load width and minimum clearances. Minimum clearance between pallets and uprights is 4".
(for two 48" w pallets clearance is 12" - use 108" w beam)
- Refer to beam length and select beam with desired capacity.
(for 108" beam and 5,000 lb load select beam RSN108)

UPRIGHT CAPACITY CHART

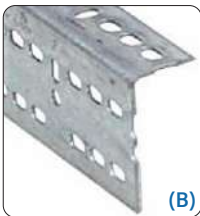

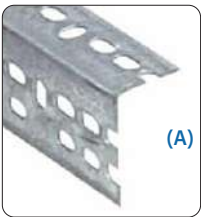

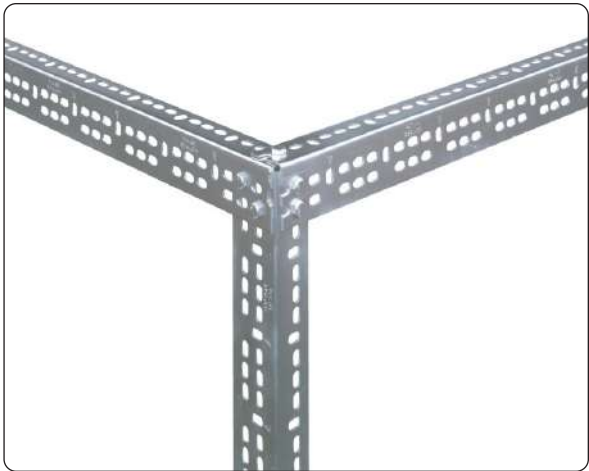

Largest Beam Spacing has a significant impact on the capacity rating of an upright.

SLOTTED ANGLE

Slotted Angle

Use this punched angle to make either platforms around assembly projects or support framing for displays. You can also use slotted angle to create non-standard sizes of storage racks or build protective framing around machinery. Unique setups are often utilized in hospitals, museums, retail outlets, and lumber yards. The list of use cases is virtually endless!

Made from rugged, cold-rolled steel with heavy, non-flaking galvanized finish. Oval horizontal and vertical holes allow precise adjustment of angles. All are clearly stamped on 3" centers for quick, simple measuring and cutting.

TIRE RACK

WHEEL AND TIRE STORAGE

Built from our bulk storage rack, this tire rack is quick to assemble and supports 2,600 lbs per level. Easily store tires and wheels using vertical space so that it doesn't take up too much space on your shop floor. Tire rack ships unassembled.

Unit Includes:

- 2 Bulk Storage Rack Ladder Brace Upright
- 6 Heavy-duty Beams
- 3 Front-to-Back
- 2 Back-to-Wall Ties
- 4 Anchoring Feet

Available In #20 Dove Gray

Width	Depth	Height	Capacity per Level	Unit

APPLICATIONS

High density storage for small to mid-sized items. A variety of drawer layouts ensure a perfect fit for your storage needs.

USE FOR: Storing hardware, tools, or small products.

AVAILABLE WIDTHS	22" 30" 36" 45" 60"
AVAILABLE DEPTHS	28-1/4"
AVAILABLE HEIGHTS	27" 31" 35" 40" 49" 68"
OVERALL COST	\$\$\$
ASSEMBLY	Easy

HIGH DENSITY STORAGE

With modular drawer cabinets, you can store a higher volume of small parts in a smaller footprint compared to shelving. Modular cabinets offer drawers that can be customized in various configurations to suit your specific storage needs. This can lead to more efficient use of space, especially in smaller workspaces.

IMPROVED ORGANIZATION

Modular drawer cabinets provide an easy-to-use and organized storage solution for small parts. Each drawer can be labeled and segmented, making it easy to find and access the items you need quickly. This can help save time and improve overall productivity by reducing the time spent searching for misplaced parts.

CUSTOMIZABLE OPTIONS

Modular drawer cabinets can be customized to meet your specific storage needs. They come in various sizes, drawer configurations, and colors, allowing you to choose the perfect solution for your workspace.

You can also choose between multiple drawer and single drawer access. Multiple drawer access allows all the drawers of the cabinet to be opened at one time.

Single drawer access allows only one drawer to be open at a time. This helps prevent a cabinet from accidentally tipping.

MODULAR DRAWER CABINETS

MINIMAL STORAGE FOOTPRINT

Our modular drawer cabinets are constructed from high-quality steel, which provides durability and longevity to the cabinets. The steel construction ensures that the cabinets can withstand daily wear and tear, making them a long-lasting investment for your workspace.

One popular solution for storing small parts is modular drawer cabinets. These cabinets provide a versatile and space-efficient storage solution for items such as tools, hardware, and small parts.

Each drawer in our modular drawer cabinets is designed to hold up to 400 pounds, making it ideal for storing heavy-duty equipment, tools, and small parts. The drawers are built with full-extension glides that provide smooth and effortless operation, allowing you to easily access the contents of the drawers.

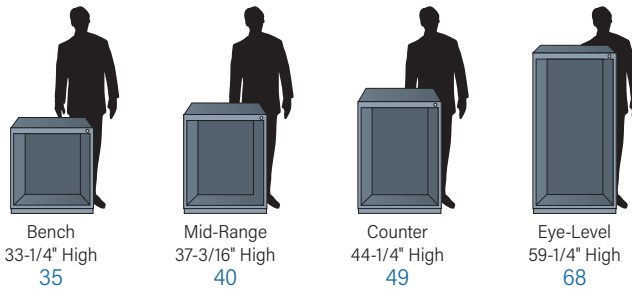

SIZE OPTIONS

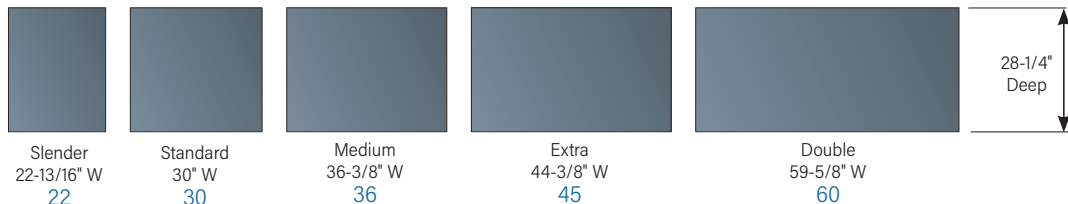

Our cabinets are available with different heights, widths, and drawer sizes. We offer both pre-designed and fully customized options for our modular drawer cabinets. Our pre-designed cabinets are available in a variety of sizes and configurations, and you can choose from a range of accessories to customize your drawers and maximize your storage space.

If you have specific requirements or a unique workspace, our team of experts can work with you to create a fully customized modular drawer cabinet that meets your exact needs.

QUICK SHIP MODULAR DRAWER CABINETS

Modular drawer cabinets feature a capacity of 400 lbs per drawer. Multiple drawer access allows several drawers to be opened at one time. The included layout kits help create smaller compartments in each drawer to keep your items organized. Dividers can be easily adjusted to create perfectly sized compartments.

The cabinet can be locked to secure all the drawers closed at one time. The forklift base allows you to easily move a fully loaded cabinet. Front and back covers are included to cover the forklift opening to prevent items from rolling underneath. Units ship assembled.

Quick Ship Units Feature:

- Cabinets are 30"w x 28-1/4"d
- Standard Lock with 2 Keys
- Multiple Drawer Access
- Drawer Layout Kits (*partitions and dividers*)
- Forklift Base

MODULAR DRAWER CABINETS | LAYOUT KITS

LAYOUT KITS

Easily add a layout kit to an empty modular drawer to create adjustable compartments.

Partitions secure to the bottom of the drawer while dividers can be easily adjusted as needed. Move, add, or remove dividers as your storage needs change.

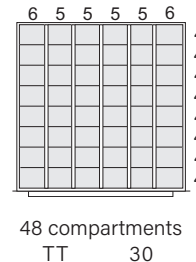

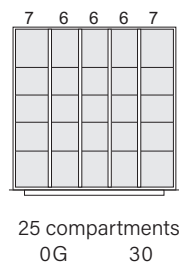

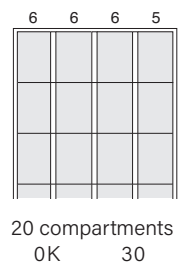

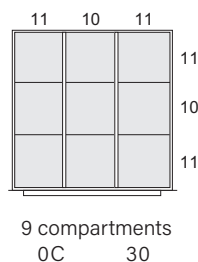

CHOOSE YOUR KIT

Select kit based on the cabinet width.

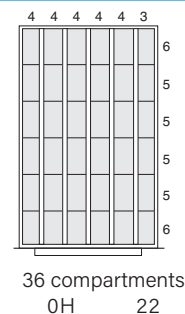

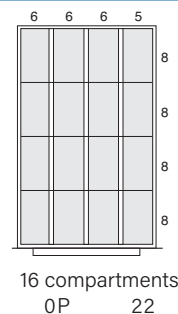

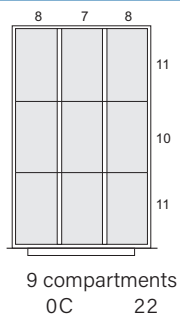

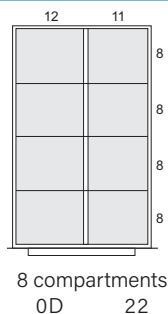

Next complete the part number with one of the following numbers to get the correct height layout kit for your drawer:

045 - for 04 & 05 drawer
067 - for 06 & 07 drawer
089 - for 08 & 09 drawer
100 - for drawer 10 & up

PARTITIONS & DIVIDERS | MODULAR DRAWER CABINETS

PARTITIONS AND DIVIDERS

Add on to an existing layout kit or build your own custom kit with individual partitions and dividers. Partitions secure into the bottom of the drawer with screws. Add dividers that can be easily adjusted to create the perfect compartment size.

*All cabinets use a STANDARD partition when the partition runs front-to-back. Use other partitions based on cabinet width when partition runs from side-to-side.

PARTITIONS

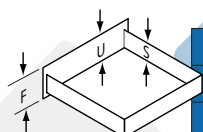

Drawer Width	Number of Segments	Approximate Length	Divider 04 & 05 Drawers	Divider 06 & 07 Drawers	Divider 08 & 09 Drawers	Divider 10+ Drawers
Slender	23	18-1/4"	045P22W	067P22W	089P22W	100P22W
Standard*	32	25-7/16"	045P30W	067P30W	089P30W	100P30W
Medium	40	31-3/4"	045P36W	067P36W	089P36W	100P36W
Extra	50	39-3/4"	045P45W	067P45W	089P45W	100P45W
Double	69	54-15/16"	045P60W	067P60W	089P60W	100P60W

Dividers slip into partition and drawer slots to create smaller compartments.

Dividers larger than 14 segments feature a base flange to secure it to the drawer bottom with included screws.

MODULAR DRAWER CABINETS | SHELF UNITS

Shelf Units available in 6 premier color options

SHELF UNITS

Shelf units include a forklift base that allows you to easily move the cabinet. Front and back covers are included to cover the forklift opening to prevent items from rolling underneath. Each unit includes one adjustable shelf. Available as either an open unit or a closed unit with a door. Doors close with a magnetic catch and can also have a locking option. Extra and double wide units include two doors.

All units ship assembled. Contact Republic for other available size configurations.

CHOOSE YOUR OPTIONS

MODULAR DRAWER CABINETS | WEAPONS STORAGE

WEAPONS STORAGE CABINETS

Meets the requirements of paragraph 4 of the Small Arms Storage Rack Certification Document; part of AR 190-11 for the physical security of arms, ammunition and explosives.

Each cabinet features multiple drawer access and a forklift base. Integrated locking system using eternal lock bars at both vertical drawer ends provides for ultimate security (padlock not included). Pistol storage features foam inserts while rifle storage has rubber-coated gun partitions. All drawers feature a bottom polyester mesh liner for weapon surface protection. Units ship assembled.

MODULAR DRAWER CABINETS | WORK BENCHES

Cabinet and Drawers available in 6 premier color options

MODULAR CABINET WORKBENCHES

Upgrade any modular drawer cabinet into a complete work bench set up. Start with either a standard or slender wide modular drawer cabinet. (see pages 46-51 for cabinet options)

Build a basic work bench by adding a work surface and a panel leg. Add either an adjustable footrest, a stringer, or an under-counter shelf to help stabilize your new work bench.

Workbenches can also be built using two modular drawer cabinets on either end of the work surface. Add other accessories to create the perfect workbench for your needs.

MODULAR DRAWER CABINETS | WORK BENCHES

Cabinet and Drawers available in 6 premier color options

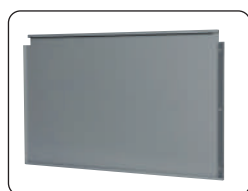

MODULAR CABINET WORKBENCHES

Upgrade your work bench set up into an office friendly option with modesty panels.

Increase your work surface area and storage by adding a bookcase riser and bookcases. 60" and 72" wide bookcase risers are designed to support the weight of two loaded bookcases, while the 90" wide bookcase riser can hold three.

METAL STOOLS

WHERE HISTORY MEETS MODERN FUNCTIONALITY

The 1901 Stool features generously sized square seat with rounded corners and a diamond pattern perforation. These stools feature flared legs, making stacking and storing them a breeze. The channel braces on the stools offer stability and double as footrests! Each stool includes a hook that attaches to the inside edge of the seat for hanging bags or purses. Stools are all-welded and finished with our durable powder coat paint finish. Stools ship assembled, hook ships loose.

OPTIONAL ACCESSORIES

For maximum comfort, add the curved steel back. This back has matching diamond perforations as well as an easy grip opening to make moving or carrying the stool easier. Our solid wood seat featuring a warm walnut stain fits neatly on top of the stool and bolts securely in place.

1901 Stools Feature:

- 24" or 30" Height
- 14-Gauge Steel
- Powder Coat Finish
- Diamond Pattern Ventilation
- 500 lb Capacity

- 20 - Dove Gray
- 16 - Red Baron
- 94 - Jet Black

HEAVY-DUTY STORAGE

We build the all-welded storage cabinets using 14-gauge steel. The all-welded construction creates rugged and durable industrial steel cabinets. Welded hinge plates to each door feature heavy-duty brass hinge pins to keep the doors aligned so that they close flush and open easily.

SECURED STORAGE

To ensure maximum security, the all-welded storage cabinets feature a robust 3-point latching system with a padlock hasp integrated into the handle. This allows you to securely lock the cabinet, protecting your valuable items from unauthorized access and ensuring peace of mind.

ADJUSTABLE SHELVES

Shelves are adjustable on 3" centers, allowing you to customize the interior space to accommodate items of various sizes. Each shelf boasts an impressive payload capacity of 1,450 lbs, ensuring that you can store heavy equipment, tools, and supplies with ease and confidence.

FORKLIFT BASE

Welded 4" high legs are welded directly to the cabinet, serving as a sturdy base and allowing forklifts to easily transport and maneuver them. This feature enhances the cabinet's versatility and makes them a convenient choice for warehouses and other industrial environments.

ALL-WELDED STORAGE CABINETS

INDUSTRIAL STORAGE CABINETS

All-welded storage cabinets are built to withstand the toughest storage challenges. These heavy-duty cabinets are constructed from durable 14-gauge steel, ensuring long-lasting durability and reliability.

With a remarkable weight capacity of 1,450 pounds per shelf, our all-welded storage cabinets provide ample storage space for even the heaviest items, making them ideal for industrial, commercial, and warehouse settings. The shelves are designed to handle heavy loads without bowing or bending, ensuring that your valuable items are stored securely.

Whether you need to store heavy tools, equipment, or supplies, our all-welded storage cabinets offer a reliable and secure storage solution that can handle the toughest demands. A variety of sizes and configurations are available to help you find the perfect storage cabinet to meet your needs.

All-welded cabinets are ideal for a wide range of applications across various industries. They can withstand the demands of heavy-duty environments and keep essential items organized and easily accessible.

CABINET VARIETY

The all-welded storage cabinets are highly versatile, offering different configurations to meet a wide range of storage needs. Whether you require a combination cabinet with a mix of half-shelves and hanging storage, bin storage cabinets for organizing small parts and components, or deep door cabinets for accommodating larger items, our all-welded storage cabinets cater to the unique requirements of various industries and applications, providing durable storage solutions.

1200 SERIES CABINETS

These economical storage cabinets feature durable steel construction with modern squared corners that provide a sleek look. The full height double doors open wide to allow full access to all areas of the cabinet. The 2-3/4" h base provides extra toe room below the doors.

Shelves can be adjusted on 3/4" centers without tools. Each shelf is held in place with four clips. The chrome plated handle turns a 3-point locking system to secure the doors closed. The handle includes an integrated lock with 2 keys.

1200 Series Cabinet Features:

- Steel construction
- Shelves adjust on 3/4" centers
- Locking turn handle with keys
- 2-3/4" High base

● Available In #20 Dove Gray

APPLICATIONS

Lockers offer quick and easy storage of personal items. Several tier and size options are available to provide the perfect locker solution for your specific needs.

AVAILABLE WIDTHS	12" 15"
AVAILABLE DEPTHS	12" 15" 18"
AVAILABLE HEIGHTS	60" 66" 72" 78"
OVERALL COST	\$\$
ASSEMBLY	Moderate to Easy

FEATURES

Every locker is built to last, with all door frame corners lapped and welded to create a strong, rigid assembly. The doors are constructed from a single piece of high-grade, prime Class 1, 16-gauge steel, ensuring exceptional strength and durability.

RECESSED HANDLE

The recessed steel handle sits flush with the locker door. The lift handle includes a hasp inside that can be secured with a hanging padlock. The recessed handle is also prepared to be fitted with a built-in lock as well.

PULL HANDLE

The steel pull handle includes a hasp that can be secured with a user provided padlock. A friction catch on the handle helps keep the door closed when no lock is being used.

LOCKER LEGS

Lockers can include 6"h legs integrated as part of the locker frame. These legs provide additional toe room beneath the locker. Rear legs are adjustable to help ensure a level installation.

LOCKERS

QUALITY LOCKERS

Republic Storage Products has been a trusted name in the manufacturing of quality metal lockers and accessories for over a century.

Our lockers are designed to meet the diverse needs of schools, gym locker rooms, and employee break areas, providing durability, functionality, and style. With an extensive range of tiers and sizes available, Republic continues to set the industry standard for steel lockers.

Locker doors are equipped with louvers for ventilation and are pre-punched to accommodate a Republic number plate. They include either recessed or pull handles, allowing for user-provided locks or built-in locks that can be directly installed. At Republic, we're committed to delivering high-quality storage solutions that stand the test of time.

ASSEMBLY

Republic lockers are available to be shipped unassembled or assembled. Unassembled lockers include the doors and frames shipped as one piece and then the remaining backs, sides, and accessories to be assembled with the include nuts and bolts. Lockers can also be ordered to be shipped assembled. Republic's factory assembly replaces the nuts and bolts assembly with a pop rivets. Hardware is still included for connecting multiple frames together.

LOCKERS | PDQ LOCKERS

PDQ LOCKERS

The most popular sizes shipped at an accelerated rate! These lockers have a 16-gauge door and frame with 24-gauge body. Standard handles can be secured with a user provided padlock or a built-in lock. PDQ lockers feature Classic Tan body parts. Doors, frames, and accessory colors can be selected in one of Republic's premier colors. Only one color per order is permitted, limit 200 frames.

Lockers are available to ship unassembled or assembled. Doors are pre-punched to accept a number plate. All orders must be clearly marked as PDQ at the time of order and must arrive with numbering and color information.

Single Tier PDQ:

- 6"w louvers on top and bottom of the doors
- Stainless steel recessed handle with finger lift
- One shelf, one double prong hook, three single prong hooks

Double & Triple Tier PDQ:

- 6"w louvers on top and bottom of the doors
- Stainless steel recessed handle with finger lift
- One double prong hook, three single prong hooks

Six Tier PDQ:

- 3"w louvers centered the doors
- Steel pull handle with hasp

Most Republic products are warranted against defects in materials and workmanship for 1 year from delivery date of product when used in accordance with Republic's specifications and/or operating instructions. Republic will repair or replace, at its option, any part found upon examination to be defective.

A written extended warranty is available upon review and request. Customizations to products may cause order to be ineligible for an extended Warranty Statement. This warranty applies to the original purchaser only and the purchaser's sole remedy under this warranty is limited to the repair and replacement of the products and specifically excludes consequential, incidental or other damages directly or indirectly resulting from failure or loss of use of, or by, Republic products. Damage from deliberate destruction and vandalism is excluded. The following items are warranted as stated:

STEEL LOCKERS

Republic lockers are warranted against defects in material and workmanship for 1 year from delivery date of product, when used in accordance with manufacturer's specifications and maintenance procedure.* (This warranty applies to the original purchaser only, and purchaser's sole remedy under this warranty is limited to replacement or repair of the product and specifically excludes consequential, incidental or any other damages directly or indirectly resulting from failure or loss of use of Republic products).
*Lock warranties limited.

CABINETS

Republic cabinets are warranted against defects in material and workmanship for the life of the product for as long as the original purchaser retains ownership, possession and control of the product, and when product used in accordance with manufacturer's specifications and load capacities. Shelf capacities are based on evenly distributed loads. Concentrated (point) loads or impact (dropped) loads could fail shelves even though load may be considerably less than the allowable evenly distributed load shown and would not be covered under warranty.

MODULAR DRAWER CABINETS

Republic warrants, only to the original purchaser, that its Modular Drawer Cabinets will remain free of defects in materials and workmanship for as long as the original purchaser retains ownership, possession and control of the product, when used in accordance with manufacturer's specifications and maintenance procedure.

Republic SHELVING AND RACK

Republic warrants that its 2000 & 8000 Series Shelving, Rivet Rack, and Bulk Storage Rack will remain free of defects in materials and workmanship for as long as the original purchaser retains ownership, possession and control of the product, when used in accordance with manufacturer's specifications and load capacities. Shelf or Level capacities are based on evenly distributed loads. Concentrated (point) loads or impact (dropped) loads could fail shelves or levels even though load may be considerably less than the allowable evenly distributed load shown and would not be covered under warranty.

PALLET RACK

Pallet Rack products by Republic that are still the property of the original purchaser, are warranted to be free of defects in material and workmanship for 1-year when used according to agreed specifications and for ordinary applications for which the products were designed. This warranty does not apply to parts which, through normal use, require replacement during the warranty period. The original purchaser must notify Republic in writing as soon as any defect becomes apparent within fifteen (15) days.

ERGONOMIC SEATING

Republic warrants all seating to be free from manufacturing defects for the life of the product when it is used in accordance with manufacturer's specifications and/or operating instructions. The life of the product is ten years for single shift users, five years for two shift users, and two-and-a-half years for three shift users, for users not weighing more than 250 pounds. Ergonomic sit-stands are warranted for five years.

OTHER PRODUCTS

Work surfaces and bench tops are warranted for 1-year against defects in materials and workmanship.

LIMITATIONS

1. The original purchaser must provide Republic in writing the date of purchase, the original invoice number, and a description of the defect, prior to returning any product under a warranty claim.
2. Products purchased by Republic such as casters, work surfaces, bench tops, pallet racks, and cantilever racks carry their manufacturer's warranty.
3. If the product was damaged in transit, the original purchaser must file a claim with the carrier within five days of delivery. This is not considered a warranty claim.

Republic will not be responsible for charges of any repairs or alterations of the product unless made with Republic's prior written consent. Routine replacement items such as safety clips, anchor bolts, and all parts that are replaced due to wear, misuse or abuse or etc. are not covered by this warranty.

Warranty claims, which result from customer errors, failure to follow safe operational procedures or inadequate maintenance will not be accepted. Republic will not be responsible for damage due to explosion, fire, wind, flood, intentional abuse, normal wear and tear or use beyond the designed capacity of the product. Freight, labor or service charges for removal of defective parts and installation of replacement parts are not included. Buyer shall pay freight charges on the returned components covered under this warranty. Under any and all circumstances, the remaining warranty disclaimer and limitation of liability shall remain in effect. Any returned products must be handled via a return authorization from Republic, or they will be refused. For more information, contact Republic at 1-800-323-0082.
